

ICT-2203: Web Technology Project Instruction

You have to make a website from the following topic by using HTML, CSS, JavaScript & PHP. Your website must have 5 sections. You'll get 10 days to complete this project. After completing this project, you'll upload it on GitHub.

Step by Step Process:

1. Firstly, you'll complete your full project and keep it in your local repository.
2. In this phase, you have to open a GitHub account and create an online repository on your account. Then you upload your full project to this repository, which you've created a few minutes ago. Make sure that your project has committed to the master branch and anyone on the internet can watch your full fronted part of your website.
3. Thirdly, you'll provide the links in the following form. The first one is your project repository link. And the second one is your hosted link that was created through the master branch when you committed this project.
Google Form Link: <https://forms.gle/AZHURJV6b135Rw5Z8>
4. Finally, you have to present your project to me through Microsoft PowerPoint. You'll get 10 minutes to present your presentation.

Website Topic

1. The Padma Bridge
2. Rooppur Nuclear Power Plant
3. Covid-19 Awareness
4. University
5. Software Company
6. Portfolio
7. Delta plan
8. Bangladesh Railway
9. Millennium Development Goals
10. Simple Blog Site
11. Tourism
12. Corona Virus
13. Sustainable Development Goals
14. Kuakata sea beach
15. Coxsbazar
16. Bangladeshi Cricket
17. Metro Rail
18. Dhaka-Chittagong Elevated Expressway
19. Paira Deep Sea Port
20. Bangladeshi Culture

Submission Deadline: 04 August 2021, 11:59 pm

Roll No.	Topic
